Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1882 Excerpt: . any appeared. 17. Small-pox. cholera, typhoid fever, cerebro-spinal meningitis. 18. Cholera infantum from July to October; the others were scattered all through that time. 19. Nothing but hog-cholera in the spring and summer. 20. Nothing unusual, except dryness. 21. They were about alike all through. 22. April, May and August. 23. There was no unusual moisture here at any time during the year. 24. About forty feet is the average. 25. There are no facts to note, only a gradual decrease of water all the year; old wells were made deeper, or new ones dug. 26. There is no comparison to be made. Yours, with respect, Wall Lake, Sac county, April 14, 1881. 27. June, July, August, September, October and November. 28. As for this, there are no facts to be stated. This question will be answered in different ways, but certain it is that...

## Reviews

*These kinds of publication is the greatest pdf available. Better then never, though i am quite late in start reading this one. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- **Lorena Streich**

*It becomes an awesome pdf that I have actually read through. It really is full of knowledge and wisdom You may like how the writer compose this book.*

-- **Amanda Gleichner**
